Subject: RE: Updated Cargo Net Drawings

ERA is supposed to install the cargo net this week on the helicopter we did the test fit on a couple weeks ago. I would suspect to hear back sometime later this week from ERA so I would suggest we wait to hear about this install and if all goes well, we can then get Tulmar to start production.

Will

Subject: RE: Updated Cargo Net Drawings

Good Morning,

Can we release the cargo nets in production at Tulmar now??

Thx Linda

FW: Cargo net - help

Lets' wait to have a go ahead from sales before we do anything else with Tulmar.

Alain,

I have sent an e-mail to Chuck as well as left him a message. Will keep on top of this.

Thanks

Steve

Steve,

Wesley is only returning to the office on Oct 24. It would be in his role to ensure proper follow-up here (soon to be the Product Manager's role), but we can't wait for his return at this point. Can you please take the lead in supporting Eng in getting the necessary inputs they need from ERA to close the loop?

Thanks

Alain

Subject: Cargo net - help

Will has been working hard to get cargo net modifications done but that is a bit stalled right now due to lack of customer feedback.

Will tells me that ERA has yet to provide feedback on the installation of the cargo net and that he has no commitment from ERA regarding flying the net to simulate a real cargo net application.

Don't really want to proceed any further with Tulmar until we have customer feedback. I feel that our customers must fall in love at first sight with this cargo net so that we can have future sales and make a big success out of this product.

Any guidance or suggestion on how to proceed?

Thanks

Denis Maranda
